October 21, 1925.

Mr. William E. Collier,
General Delivery,
Decatur, Ga.

Dear William:

I have received your card.

You know Barnesville is a small town, William and I do not know of anything you could get to do here that would be in line with your work.

How are you hooked up as an automobile mechanic? Do you know anything about this kind of work?

Of course, its better to stay with an Aircraft Company if possible, as you seem to have a talent for this kind of work, however if you can learn something regarding auto work and could manage an automobile repair shop, you might have enough money coming to you out of the real estate, to start a little business of your own.

The sale comes off the first Tuesday in November at Thomaston, Ga. I rather think that Robert will be there and I would like to have you come if you wish.

With usual kind regards to you.

Sincerely,

J.C.Collier.

JCC/AB
